ORIENTAL BLOWS UP TWO MEN ARE KILLED.

Eight Hundred Kegs of Powder Let Go in Magazine at Oliphant This Morning.

DAINAGE DONE WAS NOT GREAT

MILL is intact and Only Magazine Which Was Removed Good Distance From Works Was Destroyed—Cause of the Accident Unknown—One Man Injured.

FAIRCHANCE, Dec. 7.—Two men were killed and another seriously injured in an explosion early this morning at the Oriental Powder Company's works, a short distance from here. Tony Froze, an Italian, was instantly killed, while William Hickie of High House was so badly injured that he died shortly after the accident. Charles Filio was seriously injured but will survive. The cause of the accident is not known. The big magazine was blown to atoms, but fortunately there was but one day's run on hand. About 800 kegs of giant powder went up. The two men killed were in the magazine at the time. This building is removed some distance away from the works, which are located at the foot of the mountains, above Oliphant, and little damage was done to them.

The shock was felt for several miles around. Much excitement was caused in Fairchance and surrounding coke towns and for a time wild rumors were afloat. The men had just come to work when the accident occurred. Froze was 21 years of age and single, but Hickie, who was about 24, leaves a wife.

EGAN HELD

For Court Without Bail on a Charge of Wrecking Train No. 10 on Saturday Night.

At a hearing yesterday afternoon before Justice of the Peace J. C. Stough at West Newton, Patrick Egan was held without bail for court trial on a charge of wrecking train No. 10 on the Baltimore & Ohio railroad, near Guffey Station, last Saturday night, when two trainmen were killed, several passengers injured and a large property loss incurred. Simon Brits, engineer of the second section of the wrecked train, testified that 11 minutes after the accident Egan climbed into his engine cab. He said Egan told him that many Anarchists lived in the neighborhood.

G. A. Ogline, Superintendent of the Baltimore & Ohio railroad police, produced a lock from Egan's coal house and also the lock from the switch which had been left open, causing the wreck. He showed that one key would open both locks.

Egan explained his early presence at the scene of the wreck by saying that he had heard the crash of the cars while on a hill at Coalter, nearly a mile and a half away.

Egan was brought to Connellsville by Captain Charles Horn Thursday evening and this morning taken to Greencastle, where he was lodged in the Westmoreland county jail.

BARN BURNED.

Disastrous Fire Caused Loss to Roy Marshall of Near Addison.

ADDISON, Dec. 7.—Roy Marshall, who lives north of Addison on the Somerset pike, early this week lost 13 head of cattle and four horses, besides his barn and farming implements by fire, while his little five-year-old son came near being burned up. While the parents were away from the house for a short time the boy went into the shed adjoining the large barn and started a fire in a pile of hay and rubbish. The fire soon communicated to the barn and it was burned with its load of cattle, four horses and the farming implements. Nothing in the barn was saved and the loss is about \$5,000, with \$400 insurance.

The little boy had closed the door behind him after he entered the shed and would have been burned had not his father arrived in time to rescue him.

THE MERCHANTS TALK BUSINESS.

Tri-State Linemen's Committee on Hand With Request.

B. & O. AGENT HAS PROPOSITION

Will Meet Merchants at Next Meeting to Talk Over Matter of Locating Industry Here—Progress Reported on Board of Trade.

The Connellsville Merchants' board met last night in the Y. M. C. A. building last evening. The attendance was only fair, possibly due to the inclemency of the weather. The applications for membership were acted upon favorably. Very little progress was reported by Capt. E. Dunn in the organization of a Board of Trade for Connellsville. The Merchants' Association revived the Board of Trade movement and they are making every possible effort and mean to make it a success, an organization that will accomplish the results of a Board of Trade should. The committee of the treasury was reported and it was satisfactory.

Representative of the striking Tri-State Linemen were before the Association in regard to a communication that had been placed before the Association. The Linemen want the merchants to look into the merits of their strike against the Tri-State Company. A committee, John Dugan and Henry Rhodes, of New Haven, were appointed to investigate the matter.

DOCTORS ENTERTAINED

By Dr. G. W. Gallagher, New Haven, Thursday Evening.

The Young Medical Society was delightfully entertained Thursday evening by Dr. G. W. Gallagher at his home on Sixth street, New Haven. The meeting was the regular monthly one, all members being present, with the exception of Dr. W. W. Warren of Dunbar and Dr. T. H. White of town. Dr. D. J. McKinney of Dunbar was elected a new member. The club, which is limited to fifteen members, is now composed of the full membership. "Hysteria" was the subject of an excellent paper read by the host, later being thoroughly discussed by those present. The following officers for the ensuing year were elected: President, Dr. H. J. Bell of Dawson; Secretary and Treasurer, Dr. G. W. Gallagher of New Haven. At the close of the business session an elegant luncheon was served by Mrs. Gallagher.

New Haven Officer Quits.

SCHEDULE CHANGE.

Some Hard Passenger Runs Will Become Effective on B. & O. Monday—Other Changes Possible.

From all points the winter schedule at the Baltimore & Ohio railroad is not being much affected, either to the traveling public or the passenger business. But, if reports be true, little or change will be made Monday. One of these changes is that it is said to have been decided to work three, to do now, and it will be of vital importance to some of the old regulars. It is proposed to extend the run of No. 50, making it a through train to Pittsburgh, instead of doing over in Connellsville. This will be a great improvement on the run, for one of the crews on No. 7 and No. 8 will be taken off under the new arrangement, the crew would take No. 70 in the morning, and make the round trip to Baltimore and back. It would then take the same trip and run to Pittsburgh on No. 70, leaving here at 5:00 P. M. The crew would lay over in Pittsburgh and make the next morning make the trip to New York, and back to Connellsville on No. 80 in the evening. This would be a long run, and would only mean members of the crew to be at home every other night. Strong protests are being made by the trainmen on the present run, and this new arrangement.

It is reported that the company will make another change in No. 50, time on the Connellsville Division. Since the change in No. 50 has not been arriving here until about 10 o'clock in the evening, the Pennsylvania railroad has taken practically all the Pittsburgh passenger traffic from Connellsville. If No. 7 is made a fast run, from the B. & O. might mean the end of the business, but unless some change is made Connellsville people will travel over the Pennsylvania in going to Pittsburgh.

TWO DRUNKS.

Were Sentenced 48 Hours in Police Court This Morning.

William Farrell of Roundville was given 18 hours for being drunk at this morning's session of police court. Farrell is an old timer, the police say, and Burgess Sisson promised him a trip to jail upon his next appearance here.

Charles Kibbeywhite of Uniontown was given 48 hours for being drunk. He had \$2.50 and two quarts of whiskey, but this would not be accepted as payment of the fine.

TROLLEY PORTERS.

West Penn Company Puts Them on Cars at McKeesport and Plan May Be Adopted Here.

The West Penn Railways Company management has started an innovation at McKeesport. On cars of the West Penn in the Tube City porters are now employed. It is their duty to see that the cars are kept clean and dry and that the temperature in them is kept right. Their chief duty, however, is to see that the cars are clean. A man is not kept on each car, but at frequent intervals men employed as porters ride over the line armed with brooms and pans and at the end of the line give the cars a brief cleaning up.

The plan has not been adopted at the terminus of the big trolley line in the coke region, but it may be. One of Superintendent Brown's secretaries has always been cleanliness on the cars.

AARON OPENING DREW BIG CROWD.

Great Store on Pittsburg Street Now Fully Stocked Up.

CARRIES FINE LINE OF GOODS.

Building Has Seven Stories Practically and Everything is of the Latest Pattern—Result Since the Fire Last May.

Aaron's opening yesterday and last evening was attended by big crowds. All day there was a steady line of people lining up and out of the big department store. Yesterday was the first day since last May that Aaron's had had their store open from top to bottom for the public. On May 2 the store was burned. The top stories were completely gutted and practically the whole store was ruined.

There are now seven stories filled with goods of the latest and choicest and newest pattern. The first floor is used for a furniture display, the second for carpets and the balance of the building for every article that goes to make up the modern home.

The stock now on display and stored in the big building is just twice as large as it was before and greater than that of any other store in Western Pennsylvania outside of Pittsburgh.

Engineers Banquet.

The locomotive engineers of the Monongahela railroad held a banquet at Monongahela Saturday evening.

NOT RECALCITRANT.

J. R. Baisley Gives His Side of the New Haven Light Question Now Before Council.

J. R. Baisley, President of New Haven Borough Town Council talking of the new light proposition across the river said this morning to a reporter for The Courier: "In a little story of the recent meeting of New Haven Council you say I am still recalcitrant and refused to sign the new light contract. The definition of the word 'recalcitrant' is, 'Kicking back, showing reluctance.' Now that the citizens of New Haven and others who were not present at that meeting may know the facts as to that part of the business I give them as follows: When the resolution was offered to contract with the West Penn Electric Company for street lighting I refused to entertain the motion, stating that business of that kind should have a full attendance of the Council. I had in my possession at the time a contract that was passed by a majority of the Council, signed by the President, attested by the Clerk and sealed by the corporate seal of the Borough, a copy of which is in the hands of the contracting party and who are only waiting the proper time to enforce the contract."

"My decision was appointed from, a vote was taken and the motion declared carried by a member of the Council, not the President."

"Now if any one thinks that I, as President of the New Haven Council, would sign a contract under those conditions he is very much mistaken."

True Bills Were Found This Morning in the Connellsville Graft Cases. Cases on Trial in Civil Court This Morning—A Verdict Rendered in the Patton Case.

UNIONTOWN, Dec. 7.—The will of the late Mrs. Amanda Morton, deceased wife of A. I. Morton of Connellsville and for many years a prominent figure in that town, was admitted to probate this morning. Letters testamentary have been granted to W. A. Bishop as executor of the document. A number of bequests are made by the deceased. The document provides that a suitable monument be erected in Chestnut Hill Cemetery and that \$100 be set aside as a permanent fund to keep the grounds surrounding her grave in good shape. To her niece, Mrs. Jennie L. Thompson, is given the property on Pittsburg street, occupied by Dr. J. D. Jackson and the Adams Express Company; to the First Methodist Episcopal Church is given \$3,000, while the Foreign Missionary Society of the same church is given \$500. The balance of her estate is bequeathed to her husband, A. B. Morton, with the provision that if he is living, that legal steps be taken to have the property conveyed to her grandson, Ralph Morton when he shall attain the age of 20 years, if a commission shall judge that he is a fit person to take charge of it. In case of Ralph Morton's death, the property shall revert to his heirs, if any are living, but if he dies before his grandfather, everything shall go to A. B. Morton.

The Grand Jury late Thursday afternoon returned true bills against Councilman William McCormick, R. W. McCormick and George A. Marietta, the alleged Connellsville grafters. The bills against William McCormick charge him with being interested in borough contracts, bribery and false pretenses, while the other two are charged with only false pretenses and forgery.

Before Judge Ruppert this morning the case of James Miller against P. A. Johns of Uniontown was taken up. Miller is suing Johns for \$500, alleged to be a balance due him for the construction of the B&O Pittsburg distillery in Sittick township. It is said that Johns admits an indebtedness of \$300, and efforts were made to settle the case before it was brought to trial.

The case of Max Greenberger against Morris Krel was taken up before Judge Umbel Thursday afternoon and continued until about noon today. The two parties were in partnership in a meat store in Indiana county, but Greenberger bought out Krel's interest. He claims that \$215.00 is due him as a result of the deal.

A verdict in favor of the defendant was returned in the suit of T. H. Patton of Brownsville against Thomas H. Luddy of Uniontown. Patton sued for \$1,300 commission on a coal deal. George J. Humbert of South Connellsville was appointed an attorney to suit brought against him by the Elk County National Bank to recover on promissory notes. Humbert admits giving the notes to W. F. Ravenscraft, but denies that the bank purchased them. He claims that they were given as collateral security and deny any indebtedness to the bank.

Edward Find and Edward Livingston entered pleas of guilty to breaking into a powder magazine at Brownsville and stealing a large quantity of dynamite. They are suspected of being guilty of several similar crimes.

ADD TO SURPLUS.

Citizen's National Directors Place \$10,000 to Fund, Making Surplus \$50,000 in All.

Ten thousand dollars was added to the surplus of the Citizens National Bank of Connellsville at a meeting of the Board of Directors held yesterday afternoon. This makes the total surplus fund of the Citizens \$50,000. The Citizens National has been doing business four years. It has made big strides in that short time. Its capital stock is \$100,000, and the surplus with yesterday's addition is just half that sum.

This year so far has been the most prosperous and satisfactory in the history of the bank.

TROLLEY CAR PORTERS.

We learn with interest that porters have been put on the West Penn trolley cars in and about McKeesport, to care for the passengers and keep the cars clean and habitable.

We incline to the opinion that the Connelville system would be improved by a similar addition, but in the selection of the porters care should be exercised that they are big enough to carry a double load and deposit it carefully in the roadway or upon the sidewalk.

The trolley company has never objected to carrying an overloaded man at the same price charged for transporting the sober article; but passengers usually prefer to be excused from the "load" when it lolls all over them in a seat built for one-and-a-half, pollutes the immediate atmosphere with a whisky-and-garlic or a beer-and-lime-burger breath, and occasionally by way of breaking the monotony tries to break some other fellow's head.

A few good, stout, husky porters handy with their fists would have a clarifying effect upon the moral and material atmosphere of trolley life in the Connelville region. Let's have them, by all means.

AN UNWELCOME INDUSTRY.

There is at least one class of industrial establishments that the newly organized promoters of Connelville's prosperity and progress will not seek, namely, plants for the manufacture of powder and other high explosives.

The vicinity of Fairbairn is having an experience with them which is disturbing to the peace of mind, dangerous to the homes and persons of the people, and altogether unpleasant. The employees don't seem to mind the danger. They are possibly fatigued or old-fashioned Presbyterians who cling to the ancient doctrine of foreordination.

But there are a lot of sinners camped around who are not ready to go down and out by the aerial route, and the conditions would be much the same in Connelville. Powder mills and garbage furnaces ought to occupy isolated positions, and humanity should come not near them.

THE B. & O. SCHEDULE.

It is unauthorizedly reported that the Baltimore & Ohio management is considering the wisdom and propriety of reorganizing the winter schedule to meet the objections of the Connelville region public as recently voiced in The Courier.

It is to be hoped that the managers may be able to see their way clear to give us such train service as will meet the convenience of passengers and facilitate the movement of main matter. Mid-afternoon local trains west and east have always been a part of the Pittsburgh and Connelville division schedules and their loss is a serious inconvenience to the large numbers of people in those sections who travel and trade here.

As matters now stand the Pennsylvania system is getting a goodly portion of the passenger traffic formerly and for years enjoyed by the B. & O. The latter line has the affection of Connelville people and is better able to serve them. Its management should not lose its grip on a good situation.

TREACHEROUS TYPHOID.

Rockwood and Greensburg are struggling with mysterious outbreaks of typhoid fever which cannot be traced to any tangible causes or conditions.

It is hard to fight a masked enemy and harder to deal with a hidden cause of disease that baffles detection. The medical profession can combat the disease when it develops, but the policy of municipalities in this enlightened age is to go after the cause and remove it. Poor Richard's philosophy has become a recognized rule of municipal health departments.

The authorities of the towns mentioned should spare no effort to ascertain the cause or causes of these typhoid visitations in order that they may more effectually guard against them in the future.

PUBLIC CONDUIT SYSTEM.

Greensburg's two telephone companies have proposed to put in a conduit system and bury their wires underground, removing the unsightly and dangerous poles from the thoroughfares. The proposition is hailed with enthusiasm by the press and the people. The former suggest that all wires be put under, but they seem to think that another conduit will be necessary for the electric wires.

This has never been our understanding, at least so far as the light wires are concerned. The trolley wires and the telegraph wires entering the same underground system at the same time. Public service corporations keep the streets torn up enough as it is without permitting them further opportunities.

No corporation, or corporations, should be permitted to have a conduit franchise unless it expressly stipulates that other companies may use the conduit upon the payment of a reasonable rental, which should be specified in the ordinance. There should be no monopoly in any public service if the public can avoid it. The opportunity of competition is often quite enough to guard the people against extortion and prevent short-sighted avarice from overreaching itself.

No matter who builds the conduit system, let there be a tag upon it reading, "This is for Public Service."

Dawson proposes to have a real live fox hunt. Dawson is a real live town and does things in a real manner.

By all means let us have the history of the colored regiment dismissed in disgrace from the service of the United States, but there is no necessity for the senior senators from Pennsylvania and Ohio getting into a temper about it. Such cheap devices are certainly not necessary to enhance the brilliancy of the limelight in which a United States senator walks.

Bank elections are about the only kind that do not come under the Uniform Primary Act, but they are covered by the Revised Statutes.

With its numerous contracts, New Haven ought not soon again to be in darkness.

The Connelville township schools are doing excellently well in the matter of attendance considering the fact that they have been up against mumps and measles, chickenpox and whooping cough.

The reorganization of the Board of Trade is scarcely complete before industrial propositions are hunting them up. It will be a difficult job, but there's some gold in the glittering mass.

Brownsville is in the throes of a street railway war. One old town is once again on the frontier.

The case against the accused train-wrecker looks black enough to justify his detention without bail. Evidence has developed indicating revenge as well as plunder as motives for the deed.

The matter should be sifted searchingly. So serious a crime must be relentlessly dealt with.

If a man has to be blown up, he would rather as a rule have it done in the bosom of the family.

Connelville's graft cases have put her in the city classification. The end is what we aim at, but we do not like the means.

We must now step up to the office and settle our telephone bills as well as our water, gas and light bills, yet there are some people who think an honor to the poor printer to owe him a few dollars for subscription or job work and let him wear out his shoes and his soul's hope in seeking its payment. Printers are too polite, too considerate, too kind. They should try hideous brutality and demand the pound of flesh.

Water right-of-way cost almost as much as water and water is water these water-distributing times.

It seems harder to collect coal commissions than to sell the coal, but then it's easier to make a claim for commission than to collect it.

National banks are now permitted to loan money on real estate, but why not? Land is the basis of all values, even if it isn't all valued alike.

New Haven burglars must be of the desperate class. They have a penchant for revolvers.

The priest who thought turf speculation related to grass was on the right track and it follows that man seems to have been neck and neck with him.

Pittsburg is promised a new \$5,000, 000 steel car plant. It will be handy to the center of the coke region.

During the campaign Colonel Guffey was accused of being against the Lincoln-Bryan ticket and if he didn't support it as heartily as he might have done he contributed more liberally to its support than anybody else. The Colonel's bar is always open. That is why he is such a popular Democratic leader.

The Pullman company settled. It was cheaper to pay than to fight. Having no hearts, corporations are not sentimental.

Evidences are not lacking that this bull movement which failed to corner the turkey market on Thanksgiving day will try the same game on Christmas. It won't win. The turkeys are wise. They will eat their brethren of the fowl in self-defense.

We jump from April to December in twenty-four hours, and yet we never vainly boast of our diversified climate.

Matches have a wonderful fascination for children, and should be kept out of their reach as much as poisons. Many costly fires and fatal burnings result from this cause. Matches should never be carelessly scattered about, even among grown persons. A light in box is the proper place for matches not actually carried on the person, and the safety of matches are the safest and best.

Colonel Guffey put his hand in his pocket when the Wauwau maker outfit came around. It's a habit of the Colonels and he can't get over it.

An Up-to-Date Sunday Paper.

The initial number of The Sunday Courier made its appearance as per announcement on Sunday and showed commendable enterprise on the part of Editor Henry P. Snyder and his efficient corps of assistants. It was brimful of up-to-date telegraph and local news, while the feature articles and the comic and art supplements were of the best. The paper was well patronized by the merchants of Connelville, who have long since found out that The Courier is one of the best advertising mediums outside of the county seat.

It is Sunday papers are to be tolerated, Connelville may just as well have one as any other town and the first number of the new venture indicates that it will be a success financially and otherwise.

A PROBLEM SOLVED AT LAST.

A Talk to the Men Folks.

For several years past we have been addressing our advertisements during December to the men and each year we find more men depending upon this store for a share of the Christmas gifts they buy. The men who have done this in years past we know will be here during these busy days just ahead of us, but to those of you who have never the right of coming to a woman's store to buy your gifts we would suggest that you ask your woman who she would prefer to have her gifts come from this store. During these busy days we will make every effort to wait on you promptly.

We will be open in the evenings and someone here competent to help you with your choosing.

Principal Smith says in his report: "The report of schools this month shows an increase in number of attendance over any previous month, and our per cent. is good, notwithstanding diseases like chickenpox, whooping cough and mumps have kept a few out of school. The schools are all in good running order and every teacher is faithful and doing good work in their different grades. It is the earnest desire of the Supervising Principal that the parents of the children of the township would visit the schools personally and see the work their children are doing, and co-operate with the teachers in seeing that their own children are in school regularly and on time at the beginning of every session; also, that they will see that the pupils prepare their home studies the teacher has assigned. This will encourage the teacher and pupil and we hope that the parents will give the teacher royal support at home, in the school and abroad."

"Our worthy directors have given us nice, clean, bright, cheery school rooms, with everything comfortable and convenient for good work. They are also giving up their valuable time without compensation for the good of our public school system. So let us all, parent, Director and teacher, work together for the good of our boys and girls in the schools, and future generations will see the result of our honest efforts."

From Westmoreland's County Seat.

GREENSBURG, Dec. 7.—Dr. A. B. Moulton, Assistant Chief Medical Inspector of the State, came here yesterday and spent the entire day making a survey of the typhoid fever situation. Dr. Moulton is an expert of wide experience, and has located the local causes of many typhoid fever epidemics in Pennsylvania. He took three samples of the local water supply, from various parts of town, and sent them for analysis to the State Clinical Laboratory at Philadelphia. He expects a result from this analysis early next week.

Dr. Moulton does not think it possible that broken sewers in the infected district can result in the spread of typhoid, unless the sewage in some manner entered the water pipes or got mixed up with well water. There are no wells in the vicinity.

Dr. Moulton was very reassuring in his impression of the situation. "Keep yourselves clean, keep your houses clean, boil your water and you needn't fear typhoid," he says.

A verdict of \$3,500 was returned in the case of William Wilkerson vs. the Pennsylvania Railroad Company. Wilkerson, who is a Pittsburgh butcher, claims that he was seriously injured three years ago, while crossing at Manor. A feature of the defense was the impeachment of one witness, others swearing that this man was not present at the time of the wreck and that no such person ever lived at Manor.

The suit of A. J. Stough, against the Pittsburgh & Baltimore Coal Company, will go to the jury today. He asks big damages for three acres of coal and a spring of water, which he claims the company deprived him of. The case comes from the vicinity of Adamsburg, about eight miles west of Greensburg.

Greensburg's crack basketball five defeated the former champions from Southwest by a score of 30 to 23 here last night. Almost a thousand people saw the game, which was very exciting.

The Heart Can't Stand Rheumatic Acid Poisoning.

To Free and Correct the Blood a Urlic-O Treatment is Advised.
There is great danger in those sharp shooting pains through the chest around the region of the heart. It means that poisons are out and rheumatic acid is there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings. They are the danger signal Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure rheumatism is to get at it from the inside with Urlic-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Cleans out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.

Your physician will admit that this is the only true way to cure rheumatism permanently, and should know that Urlic-O is the one remedy that will do it successfully and permanently. BASEMENT.

Notice.

On and after Monday, Dec. 10th, 1906, until Christmas, this establishment will remain open evenings. This action is in accordance with our usual custom. The immense Christmas trade which we enjoy makes this action on our part imperative.

Old Santa Now Bids All the Boys and Girls to Come.

Our Holiday Toy Store Opens Friday, December 7th.

Months and months ago when Old Santa and his reindeer were last here filling up the stockings and covering the Christmas trees with pretty things, his agents and helpers were in far off lands making preparations for the season that is now with us, gathering great hosts of toys, dolls and games that you will see here today. In no other way could this toy store be so complete and interesting.

It is a Wonderful Sight, This Toy Store, One That Mothers and Fathers Will Enjoy as Well as the Little Folks.

When we say that EVERY TOY that is new this year, every toy that was good last year, is here, we have covered the ground. Come to the store today, bring the children along, let them have full sway, let them enjoy themselves to the full. We furnish all the features, all the entertainment, and we want your children to enjoy it to the full.

The First Opportunity You Have Had to Choose Wright-Metzler Millinery at Reduced Prices.

A twenty-five per cent. reduction effecting our entire collection of Millinery affords the women of this section a rare opportunity in the purchase of stylish head gear. It's an innovation for Wright-Metzler Co. to offer their exclusive pattern hats at a reduction at this season, and a Millinery sale at this time of year was always restricted to the lesser priced groups, but this

Reduction Is Sweeping and Includes Every Hat in the Store.

Here are beautiful creations, exclusive productions of our own work rooms that formerly sold at \$25.00, now \$18.75, and from this price down to the chic little trimmed shapes that sold at \$2.00, now \$1.50. If you have wished the possession of any particular hat and thought the price a little beyond your means, this reduction may bring it within your reach, but we suggest an early inspection, as our Millinery sales, especially one of this nature, are always very successful and the response is immediate owing to the distinctive character of our stocks.

Sale Begins Friday, Dec. 7th, 2nd Floor.

Men's Winter Underwear, 34c.

34c A Garment or Three Garments for \$1.00.

Toys That Suggest Strength and "Right Price."

There can be but one best toy store, to be sure. It may be here, it may be elsewhere. We have no right to say ours is the best. If we think so it is for you to judge. We know, however, that we have searched the toy markets thoroughly; have brought to the store every conceivable kind of toy, that we have enough to supply every demand that may be made upon us.

We can do little more—can we? Three things in a nut-shell govern the holiday store.

Novelty, Substantiality and "Right Prices."

NOVELTY. The active youngster is always alive to something new. The old hobby horse serves to entertain him, but the new pushmobile would switch his fancy like a flash. So novelty must be apparent in toyland, and novelty we have a plenty.

SUBSTANTIALITY. The plaything whose weakness and faults are covered with a flurry of pretty paint. The one that wrecks anticipation and pleasure and brings sudden disaster and discontent because of faulty construction, we try to avoid. Parents easily understand the result of mishaps to the new toys on Christmas Day. So substantiality is a strong point in this Toy Store, everywhere apparent as you wonder through Toyland.

RIGHT PRICES. When buying day comes prices cut a figure as well as a hole in the purse. We order our toys direct from Germany, and going to the German instead of him coming to us, saves you money.

Today we are only at the entrance of Toyland. It's a nineteen day pilgrimage to the exit gate, and there is much to see and much to do before we hang up our stockings.

A Sale of Pictures, 48c.

90 Suits of Men's Clothing at Half Price.

This group deals with clothing in which the run of \$15 is incomplete. The fabrics are new and the suits are stylishly tailored, but the very popularity that these lines have enjoyed cause the remaining ones to be thus sharply reduced. If your size is among them, it is a rarely good opportunity to obtain a perfect fitting and faultlessly constructed suit at just half its worth.

These pictures are in beautiful colorings and reproductions of famous paintings. The frames are heavy gilt with brass trimmings. The quantity in which we bought these pictures enables us to retail them at this seemingly impossible price. You have given a dollar for pictures no better, and in many cases not the equal of these. This forms an admirable opportunity to secure gifts that many of your friends would appreciate. We direct your attention to the display of these pictures in our east window.
